

Race Manager - Bug #157

Changing default database from Championship Manager doesn't work with race manager custom connection strings

12/07/2022 06:34 PM - Jesús M. Broceño

Status:	Closed	Start date:	12/07/2022
Priority:	Normal	Due date:

Target version:	1.23.2		

Description

Steps:

1. Set custom database connection string on Race Manager.
2. Close race manager
3. Open Championship Manager and change database on Championship Manager
4. Open race manager.

It will show the new database selection on the log at startup but the custom connection string will still refer to the old one.
