Target version:	1.25.1		

Description

ZRound tells me in various ways when the car passes the measurement line. It's a sound and it's a zround display

But isn't it difficult to understand in what order the cars passed during race events?

For example, when 3 cars pass at once. The sound will fire 3 times. I understand that 3 cars have passed, but I don't know the order

So I would like to know if it is possible to have a mini window like this. The history of passing the measurement line is displayed here

```
+-----+
| DriverName | Laps | Time |
+-----+
|           |      |      |
|           |      |      |
|           |      |      |
|           |      |      |
+-----+
```

When the car passes the measurement line, its driver will be displayed at the top

```
+-----+
| DriverName | Laps | Time |
+-----+
| K.Yano     | 1    | 11.089|
|           |      |      |
|           |      |      |
|           |      |      |
+-----+
```

Here is an example of two cars passing after that

```
+-----+
| DriverName | Laps | Time |
+-----+
| Mike       | 1    | 09.021|
| Jesus      | 1    | 08.078|
| K.Yano     | 1    | 11.089|
|           |      |      |
+-----+
```

It will look like this when the leading driver passes again. This does not indicate heat ranking

```
+-----+
| DriverName | Laps | Time |
+-----+
| K.Yano     | 2    | 09.123|
| Mike       | 1    | 09.021|
| Jesus      | 1    | 08.078|
| K.Yano     | 1    | 11.089|
|           |      |      |
+-----+
```

If possible, it would be nice to be able to change the background color of Driver name. The background color changes when each

driver updates the Best Lap

Implementation

New panel added to the main console
clipboard-202307241930-ia3dz.png

It can be decoupled as bestlaps form
clipboard-202307241930-irozo.png

- Font size can be adjusted with ctrl and the mouse wheel (editado)
- It can be cleared manually (using the "clear" option on the context menu). It's automatically cleared before starting every timing session
- It shown on green the racer's best time, on purple the session best time and on white a normal lap. Even/odd rows are colored on different background tone for better reading

History

#1 - 07/24/2023 05:31 PM - Jesús M. Broceño

- File clipboard-202307241930-ia3dz.png added
- File clipboard-202307241930-irozo.png added
- Description updated
- Status changed from New to Feedback

#2 - 07/24/2023 05:31 PM - Jesús M. Broceño

- Target version set to 1.25.1

#3 - 07/30/2023 06:31 PM - Jesús M. Broceño

- Status changed from Feedback to Closed

#4 - 07/30/2023 06:57 PM - Jesús M. Broceño

- Description updated
