Description			
<ul style="list-style-type: none">• Red lights should be turned on when the race ends.• Yellow lights should be turned on when the race is paused• Yellow lights should blink when the race time is over			
Improved protocol			
Mini Race Challenge lapcounter has been improved to manage red lights & yellow lights options			
This will turn on the red lights			
<ul style="list-style-type: none">• CMD_COUNTDOWN_SET:111110			
To turn on the yellow lights this is the command:			
<ul style="list-style-type: none">• CMD_COUNTDOWN_SET:111111			
To turn the green lights:			
<ul style="list-style-type: none">• CMD_COUNTDOWN_SET:000001			
There is another new command to make it blink in yellow, I use it during the overtime to hurry up the racers. I don't know if this applies to zround. In case the command is the following:			
<ul style="list-style-type: none">• CMD_COUNTDOWN_BLINK:300,200			
(300 is the lights on time in ms and 200 off time)
