<b>Target version:</b>	1.26.1		
<b>Description</b>			
<p>Now "Transponder - XXXXX" is used as "speaker" text for events related to the car. There is no problem as long as I register the name of the transponder immediately. But if the administrator is not there, the race manager will make an announcement like this "Transponder XXXXXXXXXX Best time YYY seconds"</p> <p>This is very long and difficult to listen to. Is it possible to leave this field blank or enter a predetermined character, such as "Unknown" ?</p>
