Category:		Estimated time:	0:00 hour
Target version:	1.26.1		
Description			
I have a question about speak for unknown transponders. The race manager will announce the goal estimate. However, we do not announce each LAP time. Is there a way to make LAP time announced even if it is an unknown transponder? Of course, unknown transponder results do not need to be recorded in the database. Just announce their lap times. Please consider it
